About Us

Greenfields Outdoor Fitness is a designer and manufacturer of outdoor fitness equipment, designed and built for use in open space by unsupervised masses. Based in Orange County, California since 2007, Greenfields' equipment has been enthusiastically embraced by both civilian and armed forces communities across North America and abroad for its high quality and multi-generational appeal. Greenfields continually breaks new ground in the outdoor fitness industry by refining and adding to its extensive product line as it fulfills its mission to "Promote Wellness & Fight Obesity One Community at a Time."

What sets us apart

Greenfields offers the largest selection of outdoor fitness activities for users at all fitness levels:

- Greenfields is famous for its rugged and durable design, which is installed in 48 states, 6 provinces in Canada, as well many locations in Central America and the Caribbean islands.
- Greenfields is also famous for its Customer Support Center with unparalleled response times.
- Challenging Functional Fitness Rigs offer countless fitness options for those interested in CrossFit and Boot-Camp type workouts. Greenfields can customize the fitness rigs to accommodate unique project needs
- The cutting-edge Professional Series incorporates bi-directional pistons with adjustable resistance for a customized workout. This feature, which is unique in the industry, affords an intense workout to even the fittest and strongest users.
- Patented Signature Accessible line for users in wheelchairs (U.S. Patent 9,079,069)
- The Legacy Series of body-weight leverage resistance equipment enables users to work against their own body mass. This fitness equipment can be used by almost anyone, regardless of ability or fitness level.
- All of Greenfields exercise units – even those with moving parts – are virtually maintenance-free and require no lubrication.
- Complimentary site layout design, including a 3D simulation is available for all projects.
